

ADITYA AUTO PRODUCTS & ENGINEERING (I) PVT. LTD.

GHG EMISSIONS REPORT FY 2024-25 & 2025-26

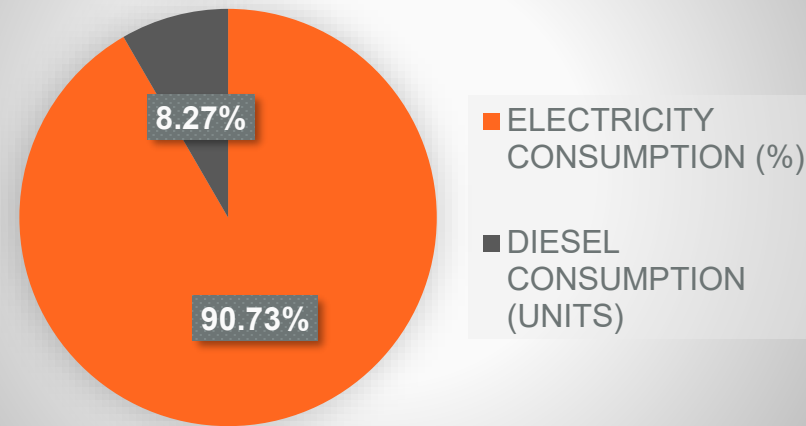

FY 2023-24 IS BASELINE FOR AAP KPI'S

Environmental Reporting- Total Scope 1 Emission

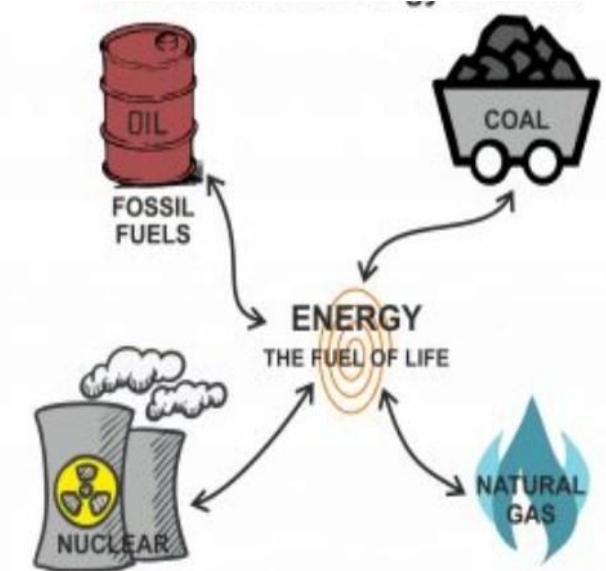

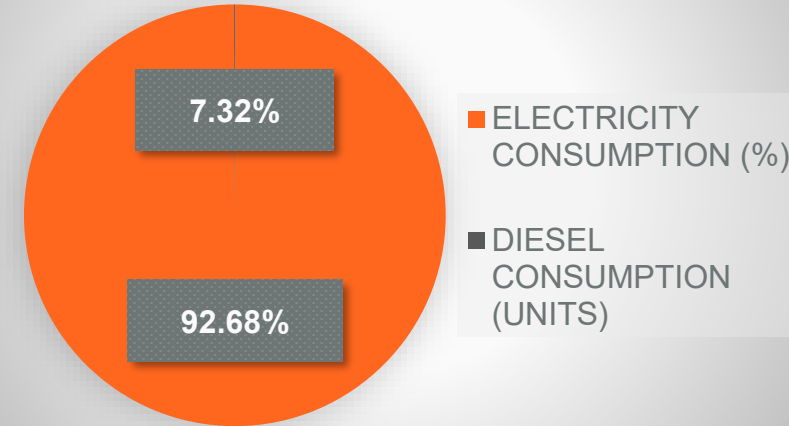

Total FY-2023-24

Total FY-2024-25

Total FY-2025-26

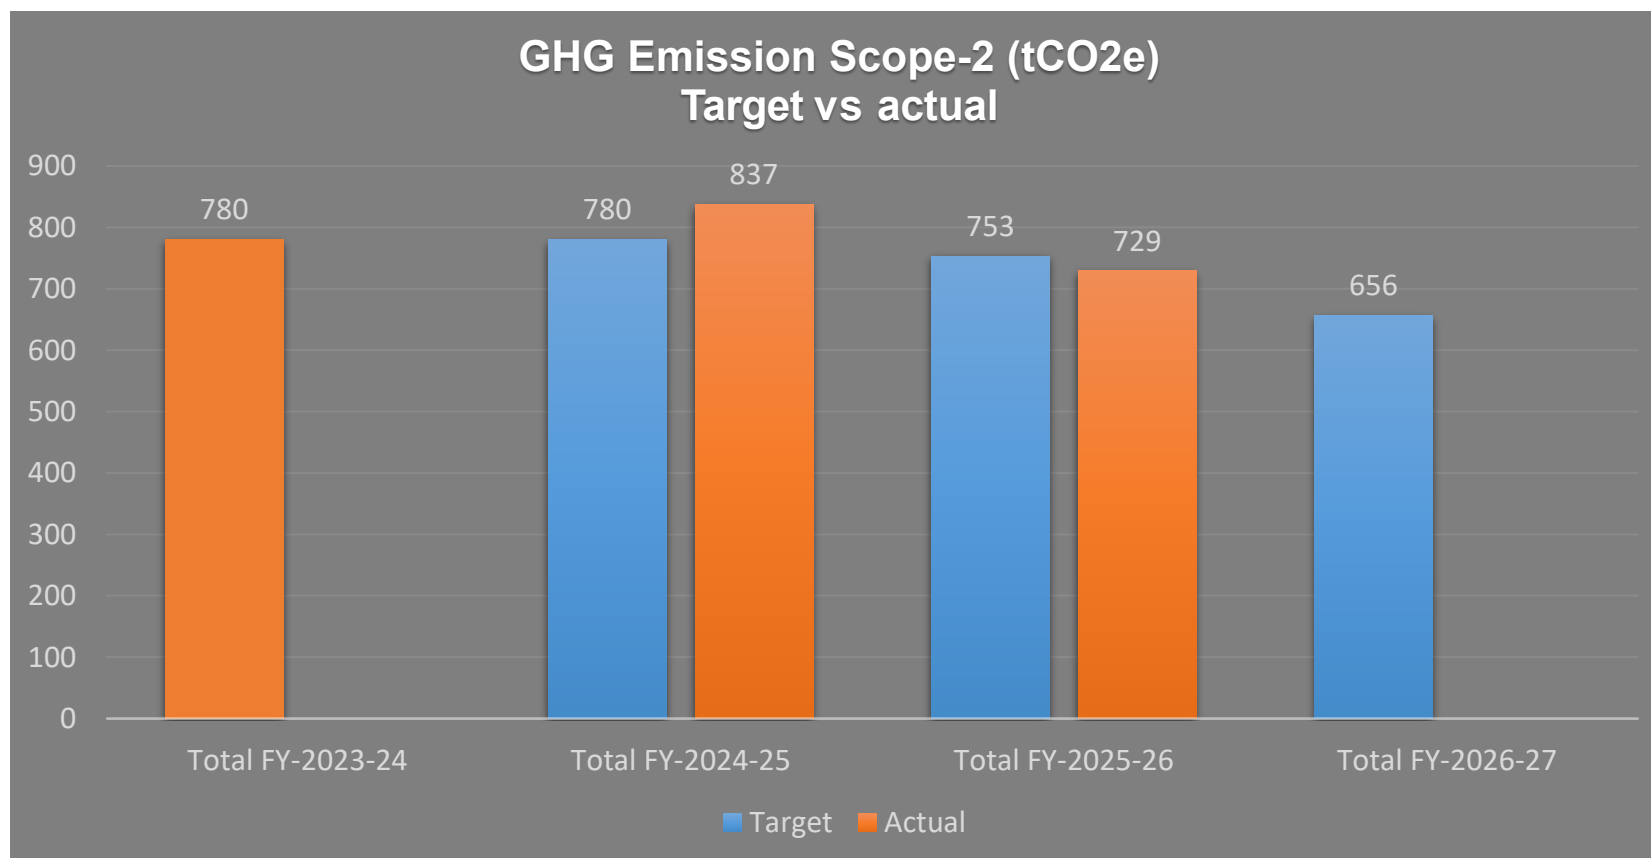

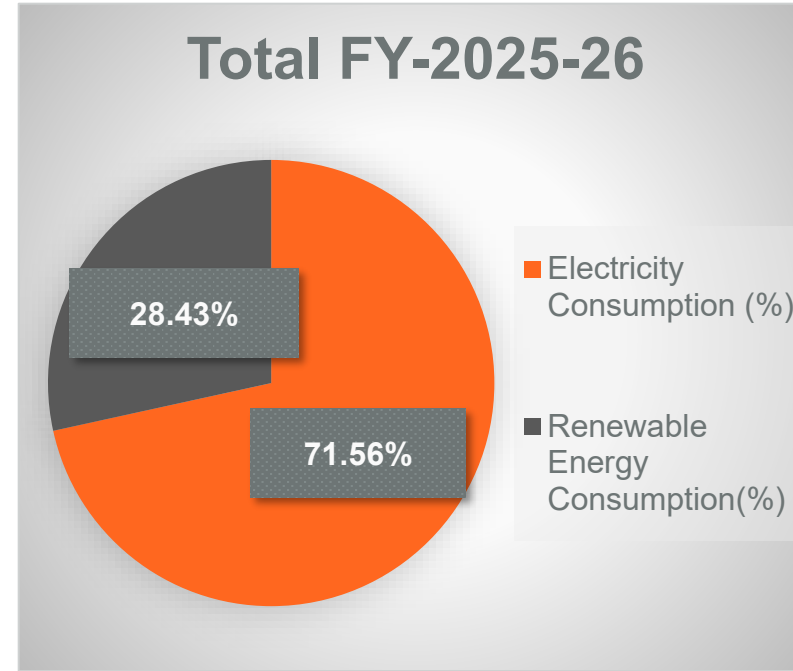

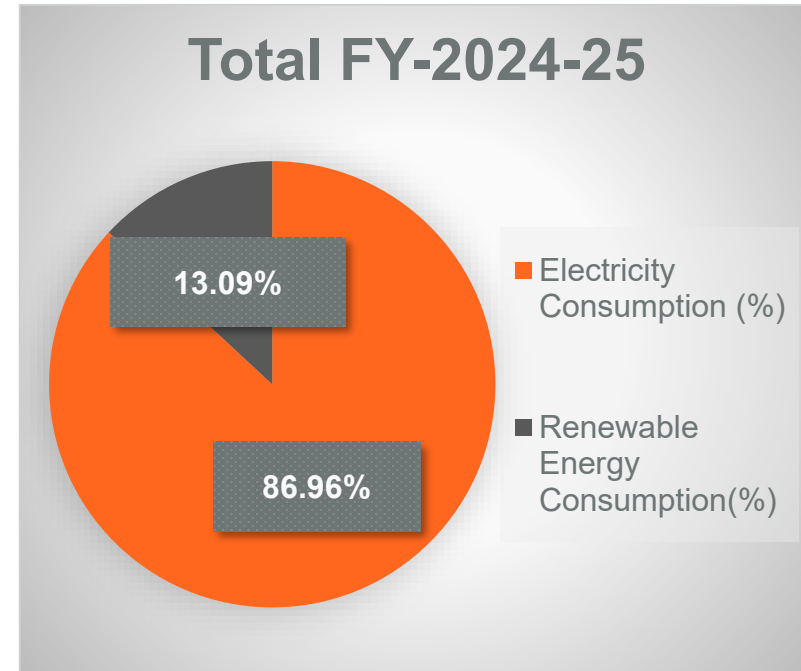

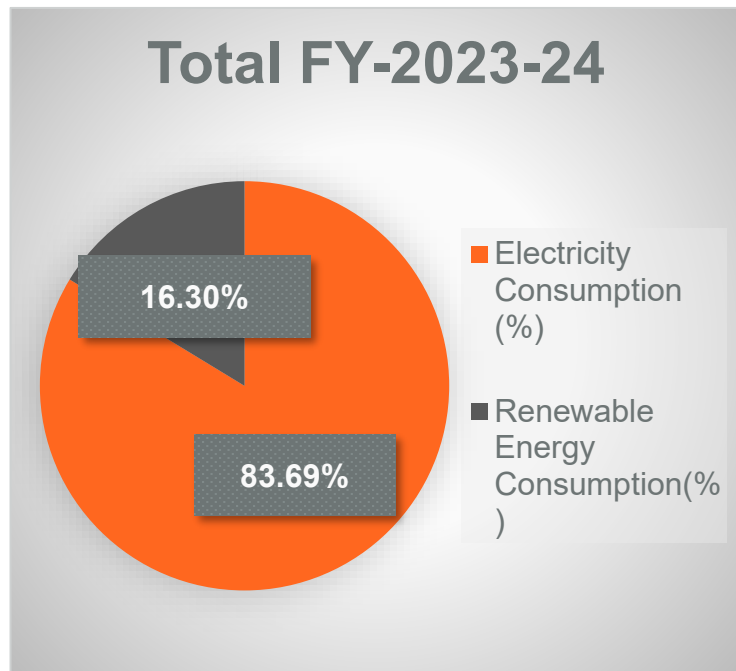

GHG Emission Scope-1 (tCO₂e) Target vs Actual

- AAP is committed to reducing Scope 1 emissions Net Zero by 2030.
- Actual emissions for FY 2023–24 were 29.33 tCO₂e, and reduction targets have been defined using this year as the baseline.
- Fuel switching will be implemented by transitioning from furnace oil and diesel boilers to gas-based systems.

Environmental Reporting- Total Scope 2 Emission

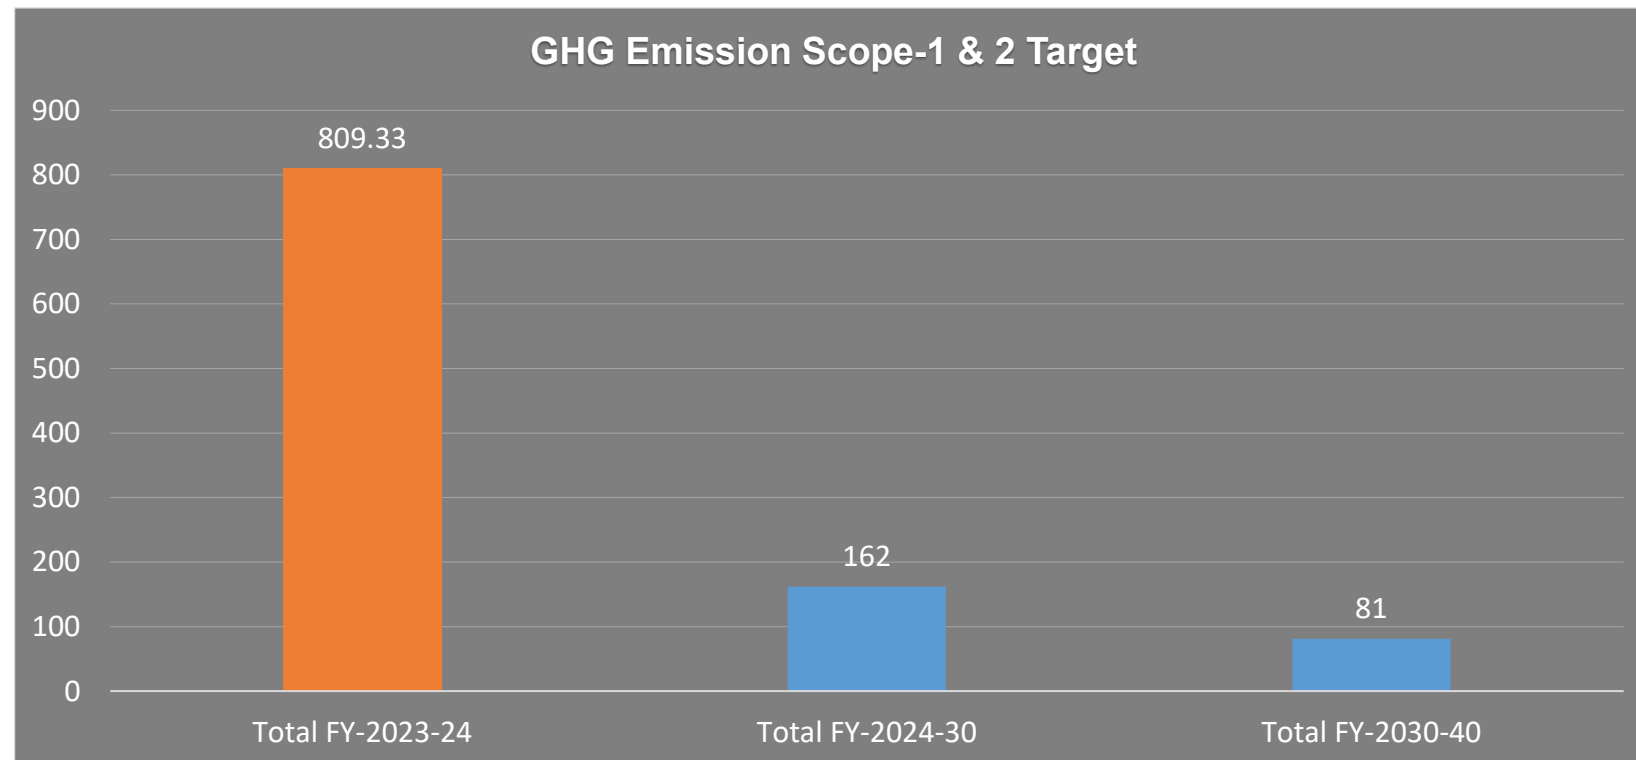

- AAP is committed to reducing Scope 2 emissions by achieving 100% usage of renewable energy.
- Actual emissions for FY 2023–24 were 780 tCO₂e, and targets have been defined using this data as the baseline.
- During FY 2024–25, electricity consumption at AAP increased because of higher customer demand and expanded production schedules.

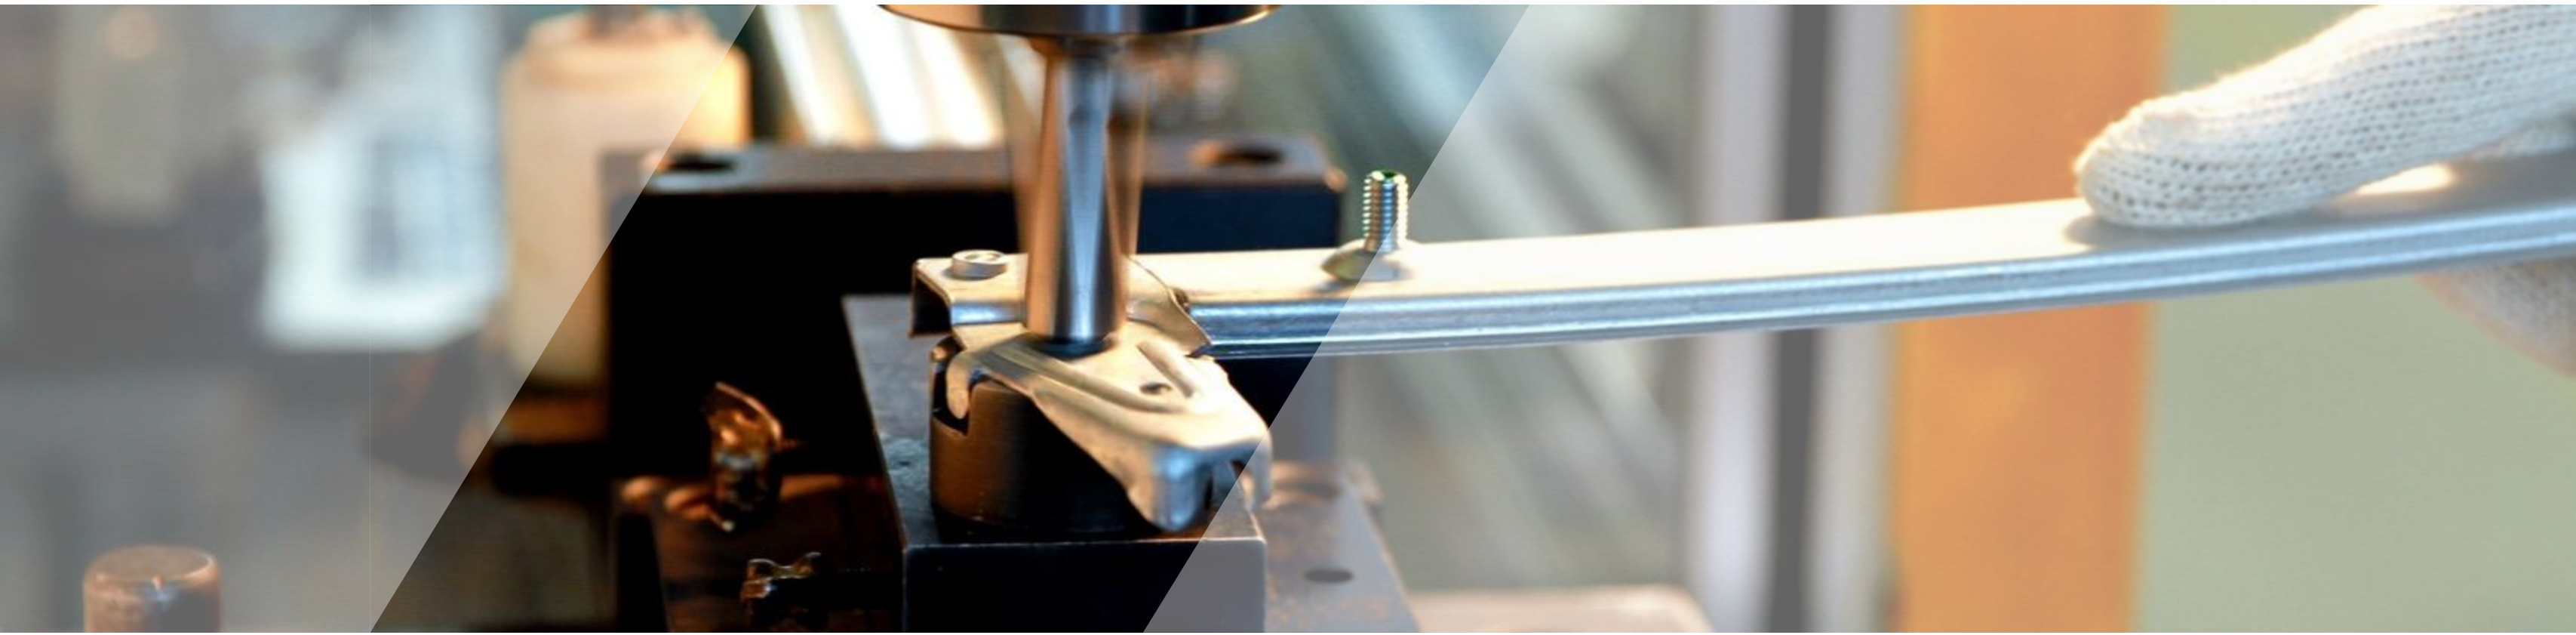

Environmental Reporting- Total Scope 3 Emission (Up & Down)

- AAP committed to reduce the GHG scope 3 emission.
- To define Scope 3 emission reduction targets, actual data monitoring system has been initiated at the supplier level.

Environmental Reporting- GHG Reduction

- AAP committed to reduce the GHG scope 1, 2 and 3 emission.
- KPI has been defined for scope1 and Scope-2 emission reduction from the base line year FY 2023-24.
- AAP is committed to reducing its Scope 1 and Scope 2 GHG emissions by **162 tCO₂e** by 2030 (80% reduction from the FY 2023–24 baseline) and by **81 tCO₂e** by 2040 (90% reduction from the FY 2023–24 baseline).
